

Choose a photo to color

Compare two photos before converting either one.

Photo A: _____

Photo B: _____

Check the boxes that fit each photo.

What can you see?	A	B
One clear subject I can spot the thing I want to color.	☐	☐
A quieter background Fewer patterns or overlapping objects compete.	☐	☐
Important edges in frame The ears, paws, petals or handle I want are visible.	☐	☐

My choice: _____

Before coloring, I will check:

These are starting points, not a conversion score. Check the output for unwanted lines, missing details and gaps before coloring. Photo choice does not guarantee even black lines, remove gray residue or close fill gaps.

Use a photo you took or have permission to use. Check sensitive details and the converter's privacy policy before uploading. This worksheet collects no photos or personal information.
